CONTRACT LIGHTING

This is Mario Russo!

MARIO{

Mario Russo started MARIO INDUSTRIES in 1922 manufacturing Mica shades in New York. Soon after, the company started flourishing and is now one of the leading Hospitality Lighting Manufacturers and Designers in the United States. Currently lead by the 4th generation of the Mario Family, we welcome you to be a part of this long living legacy

INSPIRES
DESIGNS
MANUFACTURES

SINCE
1922

WE THINK SIMPLE!

All our DESIGN INSPIRATIONS come from the most OBVIOUS things around us which we often neglect because of its subconscious adaptability in our lifestyle. But those are the THINGS which we relate to the most. This catalog carries such SIMPLE yet BOLD designs for your next HOSPITALITY PROJECT.

CW6101

Height: 24"

Globe size: 8"

Shade Material: Opal Glass

Polished Chrome finish (available in all MCL standard finishes)

Lamping: 15W LED medium base bulb (Bulbs not included)

CW6104

Height: 30"

Globe size: 7"

Shade Material: Opal Glass

Polished Chrome finish (available in all MCL standard finishes)

Faux wood finish

Lamping: 2 x 10W LED medium base bulbs (Bulbs not included)

IT ALL
STARTS
WITH
POINTS
AND
LINES

This series embraces the simplicity of a line and how elegant it can look in an environment. Simple steel pipe (bent/straight) reaching towards the globe making a simple connection. Note the neat details in the fixture

CW6101

LIGHTING UP THE GLOBE

CW6098

Height: 20"

Globe size: 8"

Shade Material: Opal Glass
Polished Chrome finish (available in all
MCL standard finishes)
Lamping: 18W LED medium base bulb
(Bulbs not included)

CW6100

Height: 17"

Globe size: 9"

Shade Material: Opal Glass
Satin Brass/Black powder coat
(available in all MCL standard finishes)
Lamping: 18W LED medium base bulb
(Bulbs not included)

CW6099

Height: 24"

Globe size(2): 8"

Shade Material: Opal Glass
Black powder coat(available in all MCL
standard finishes)
Lamping: 2 x 10W LED medium base bulbs
(Bulbs not included)

Globe continues to find its place but with much defined form this time which enhances the beauty of the circle. Square metal pipes custom made to different shapes house the globe.

CW6097

Height: 9.5"

Globe size: 8"

Shade Material: Opal Glass
Polished Chrome finish (available in all
MCL standard finishes)

Lamping: 18W LED medium base bulb
(Bulbs not included)

CW6097

CW6103

LIGHTING UP THE GLOBE

Inspired from the Jewish Menorah
candlesticks. The central pipe
houses the wires while the
black rods hold the globe.

CW6103

Height: 20.5"

Globe size: 9"

Shade Material: Opal Glass

Satin Nickel finish/Black powder coat
(available in all MCL standard finishes)

Lamping: 18W LED medium base bulb
(Bulbs not included)

CW6102

Height: 16"

Globe size: 6"

Shade Material: Opal Glass

Polished Nickel finish (available in all MCL
standard finishes)

Lamping: 10W LED Candelabra base bulb
(Bulbs not included)

CW6105

Height: 30"

Globe size: 5"

Shade Material: Opal Glass

Polished Chrome finish (available in all MCL
standard finishes)

Lamping: 2 x 10W LED Candelabra base bulb
(Bulbs not included)

CW6094

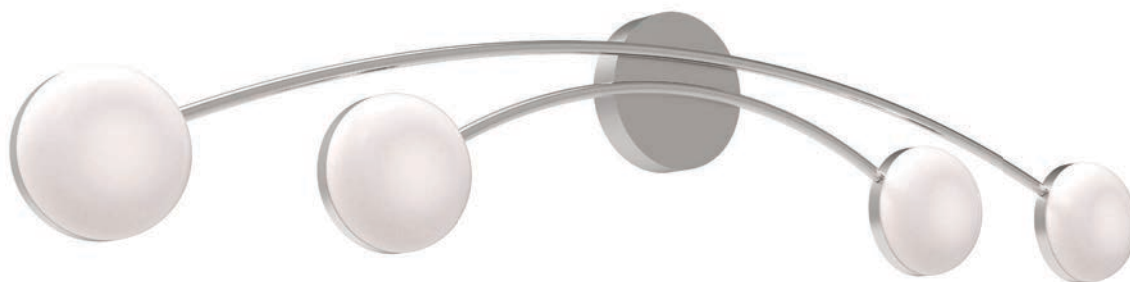

Width: 37" and 42"

Globe size: 6"

Shade Material: Opal Glass

Satin Nickel finish (available in all MCL standard finishes)

Lamping: 4 x 5W LED Candelabra base bulb
(Bulbs not included)

CW6096

Width: 37"/42"

Shade size: 6"

Shade Material: Custom Acrylic

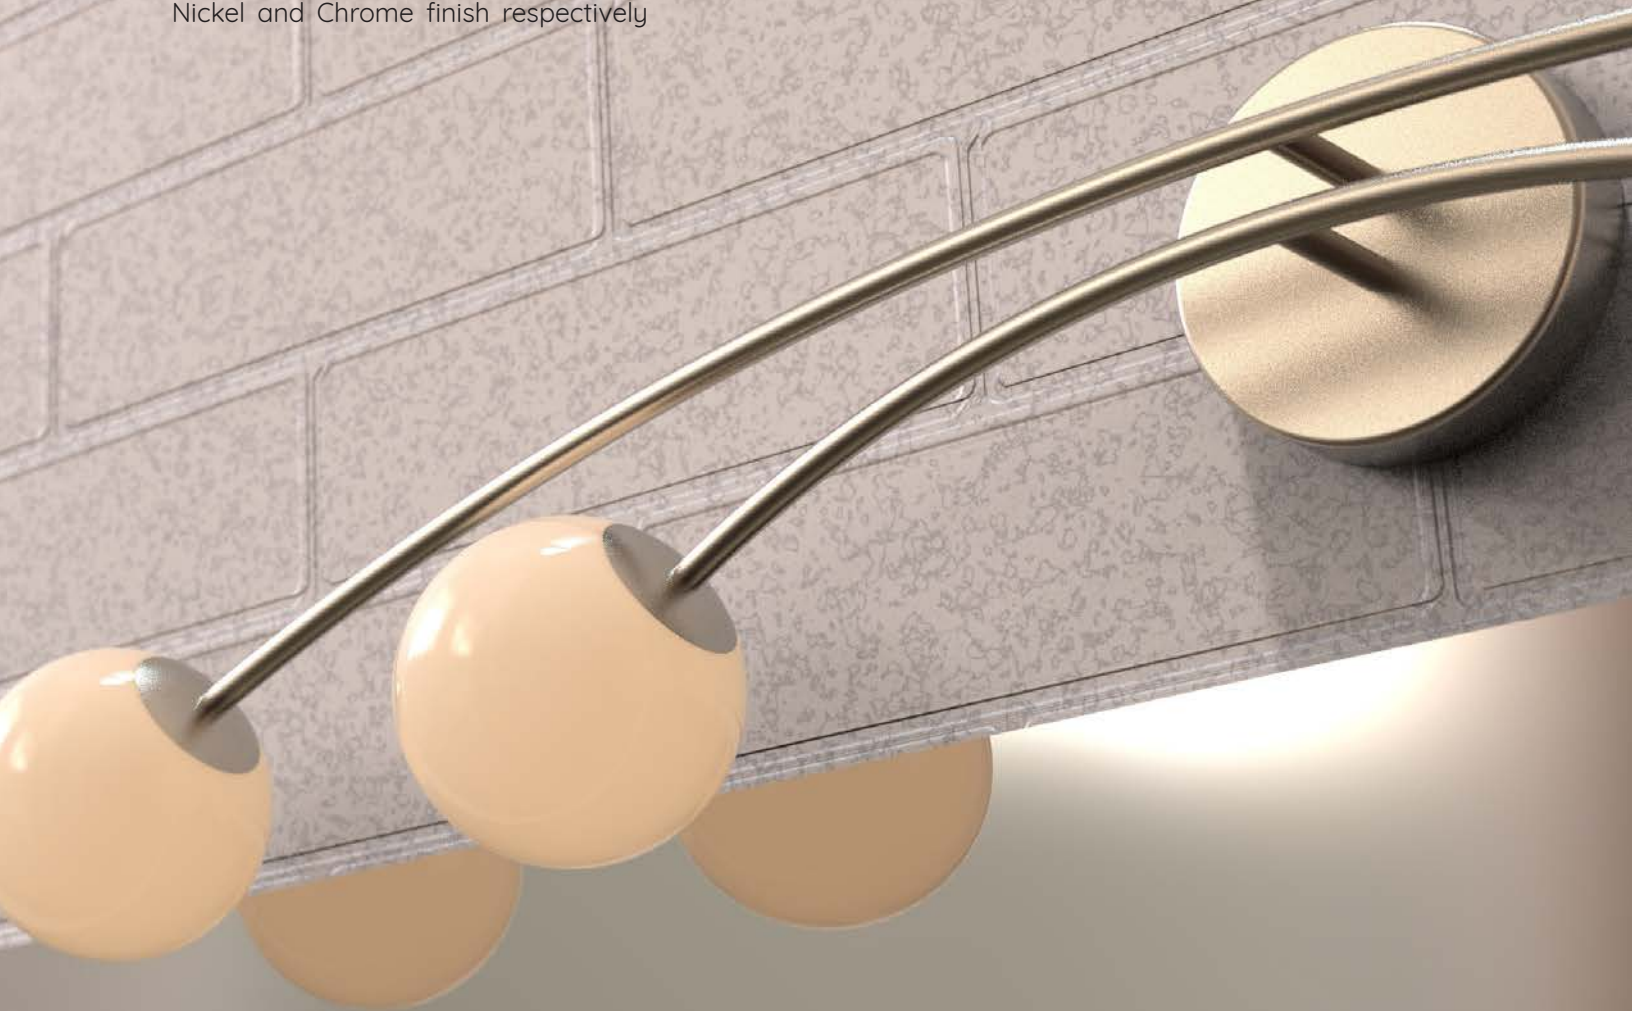

Polished Chrome finish (available in all MCL standard finishes)

Lamping: 4 x 5W Panel LED
(Bulbs not included)

CW6094

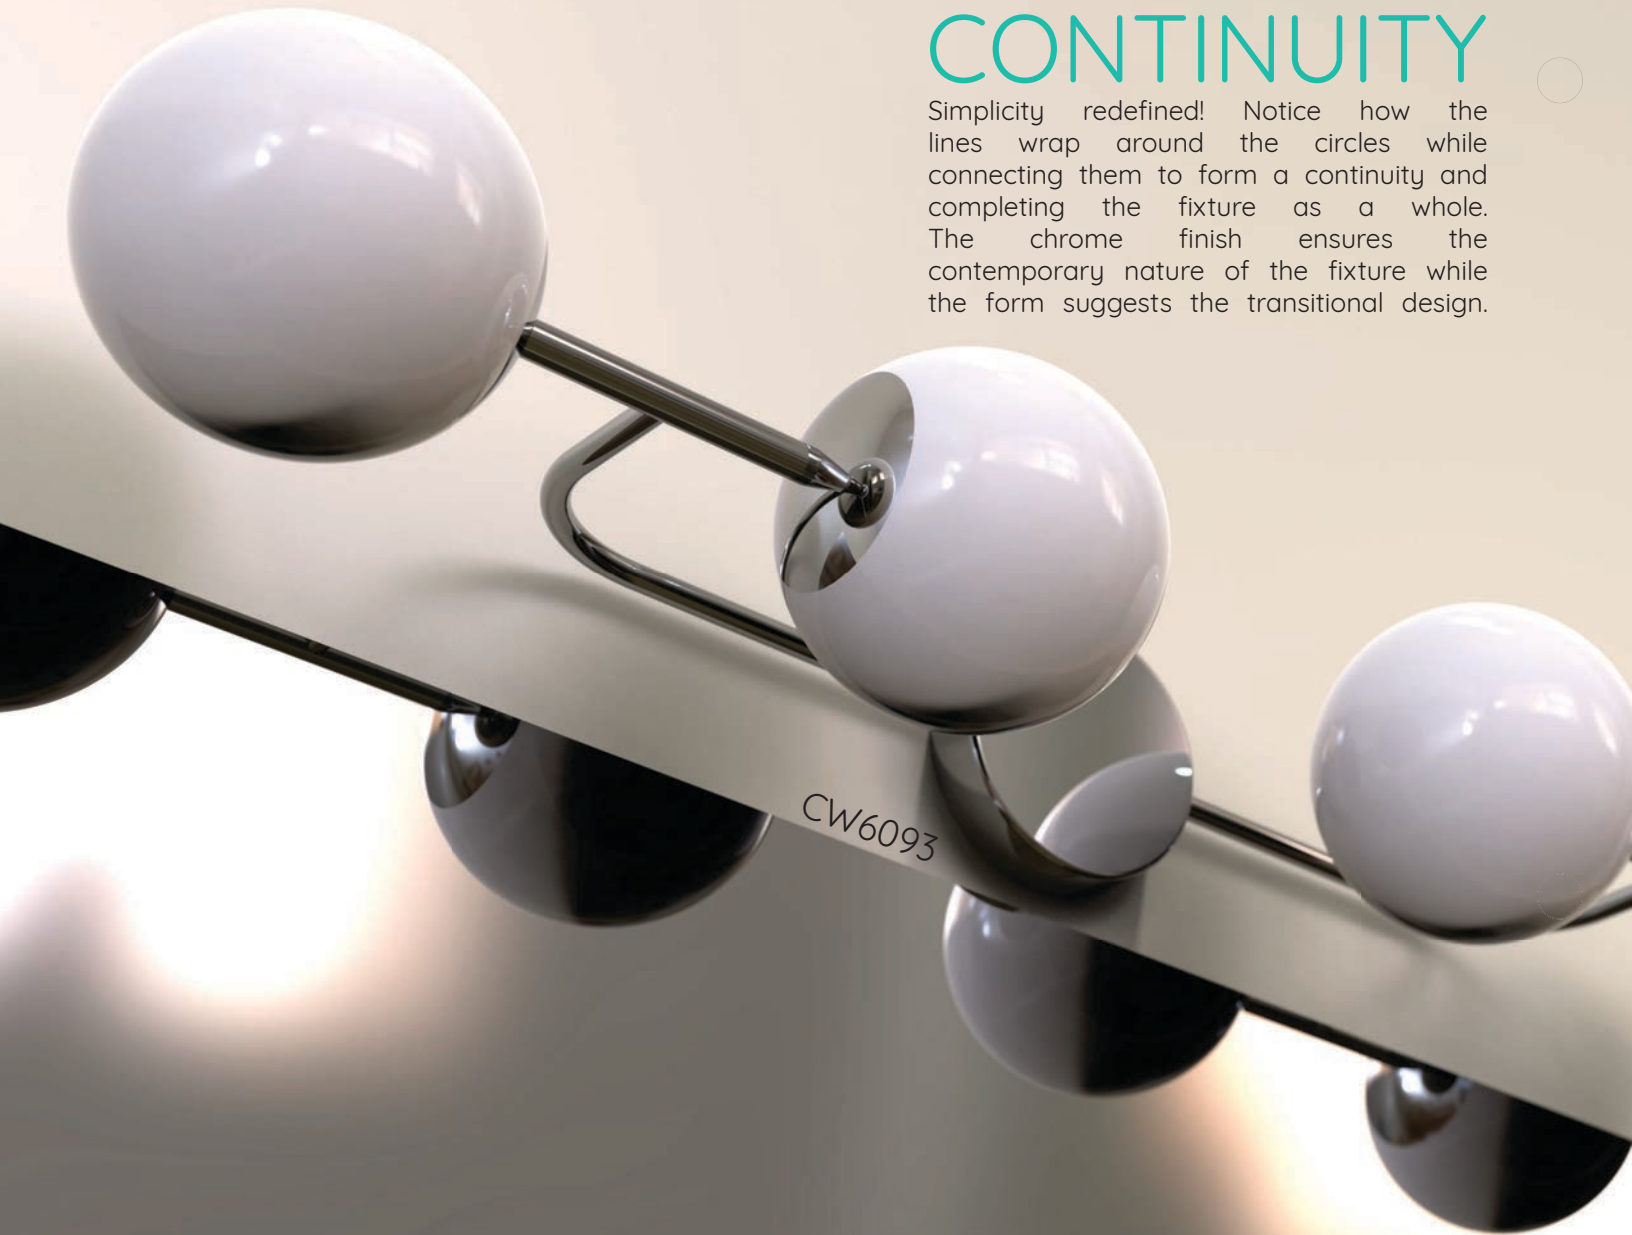

FOLLOWING THE ARCHED LINES

Notice the Simplicity of the Arched Lines leading up to our very own globe while turning itself into this tranquil piece of lighting. Offered in warm and cool lighting options with Nickel and Chrome finish respectively

BEAUTY OF CONTINUITY

Simplicity redefined! Notice how the lines wrap around the circles while connecting them to form a continuity and completing the fixture as a whole. The chrome finish ensures the contemporary nature of the fixture while the form suggests the transitional design.

CW6093

Width: 32"

Globe size: 5"

Shade Material: Opal Glass

Polished Chrome finish (available in all MCL standard finishes)

Lamping: 4 x 5W LED Candelabra base bulb (Bulbs not included)

CW6095

Width: 36"

Shade size: 5"

Shade Material: Opal Glass

Satin Brass finish (available in all MCL standard finishes)

Lamping: 4 x 5W LED Candelabra base bulb (Bulbs not included)

CW6110

Width: 25"

Shade Material: Custom acrylic strip

Polished Chrome finish (available in all MCL standard finishes)

Lamping: 18W LED strip (included)

CW6111

Width: 33"

Shade size: 5"

Shade Material: Custom Acrylic ring

Polished Chrome finish (available in all MCL standard finishes)

Lamping: 5 x 5W LED strip (included)

CW6110

CW6108

Height: 28"

Shade Material: Custom Opal acrylic
Polished Chrome finish (available in
all MCL standard finishes)

Lamping: 20W Strip LED (included)

CW6107

Height: 24"

Shade Material: Custom cut acrylic
Satin Nickel finish (available in all
MCL standard finishes)

Lamping: 18W strip LED (included)

CW6089

Height: 25"

Shade Material: Custom acrylic
Faux wood finish (available in all MCL
standard finishes)
Lamping: 18W strip LED (included)

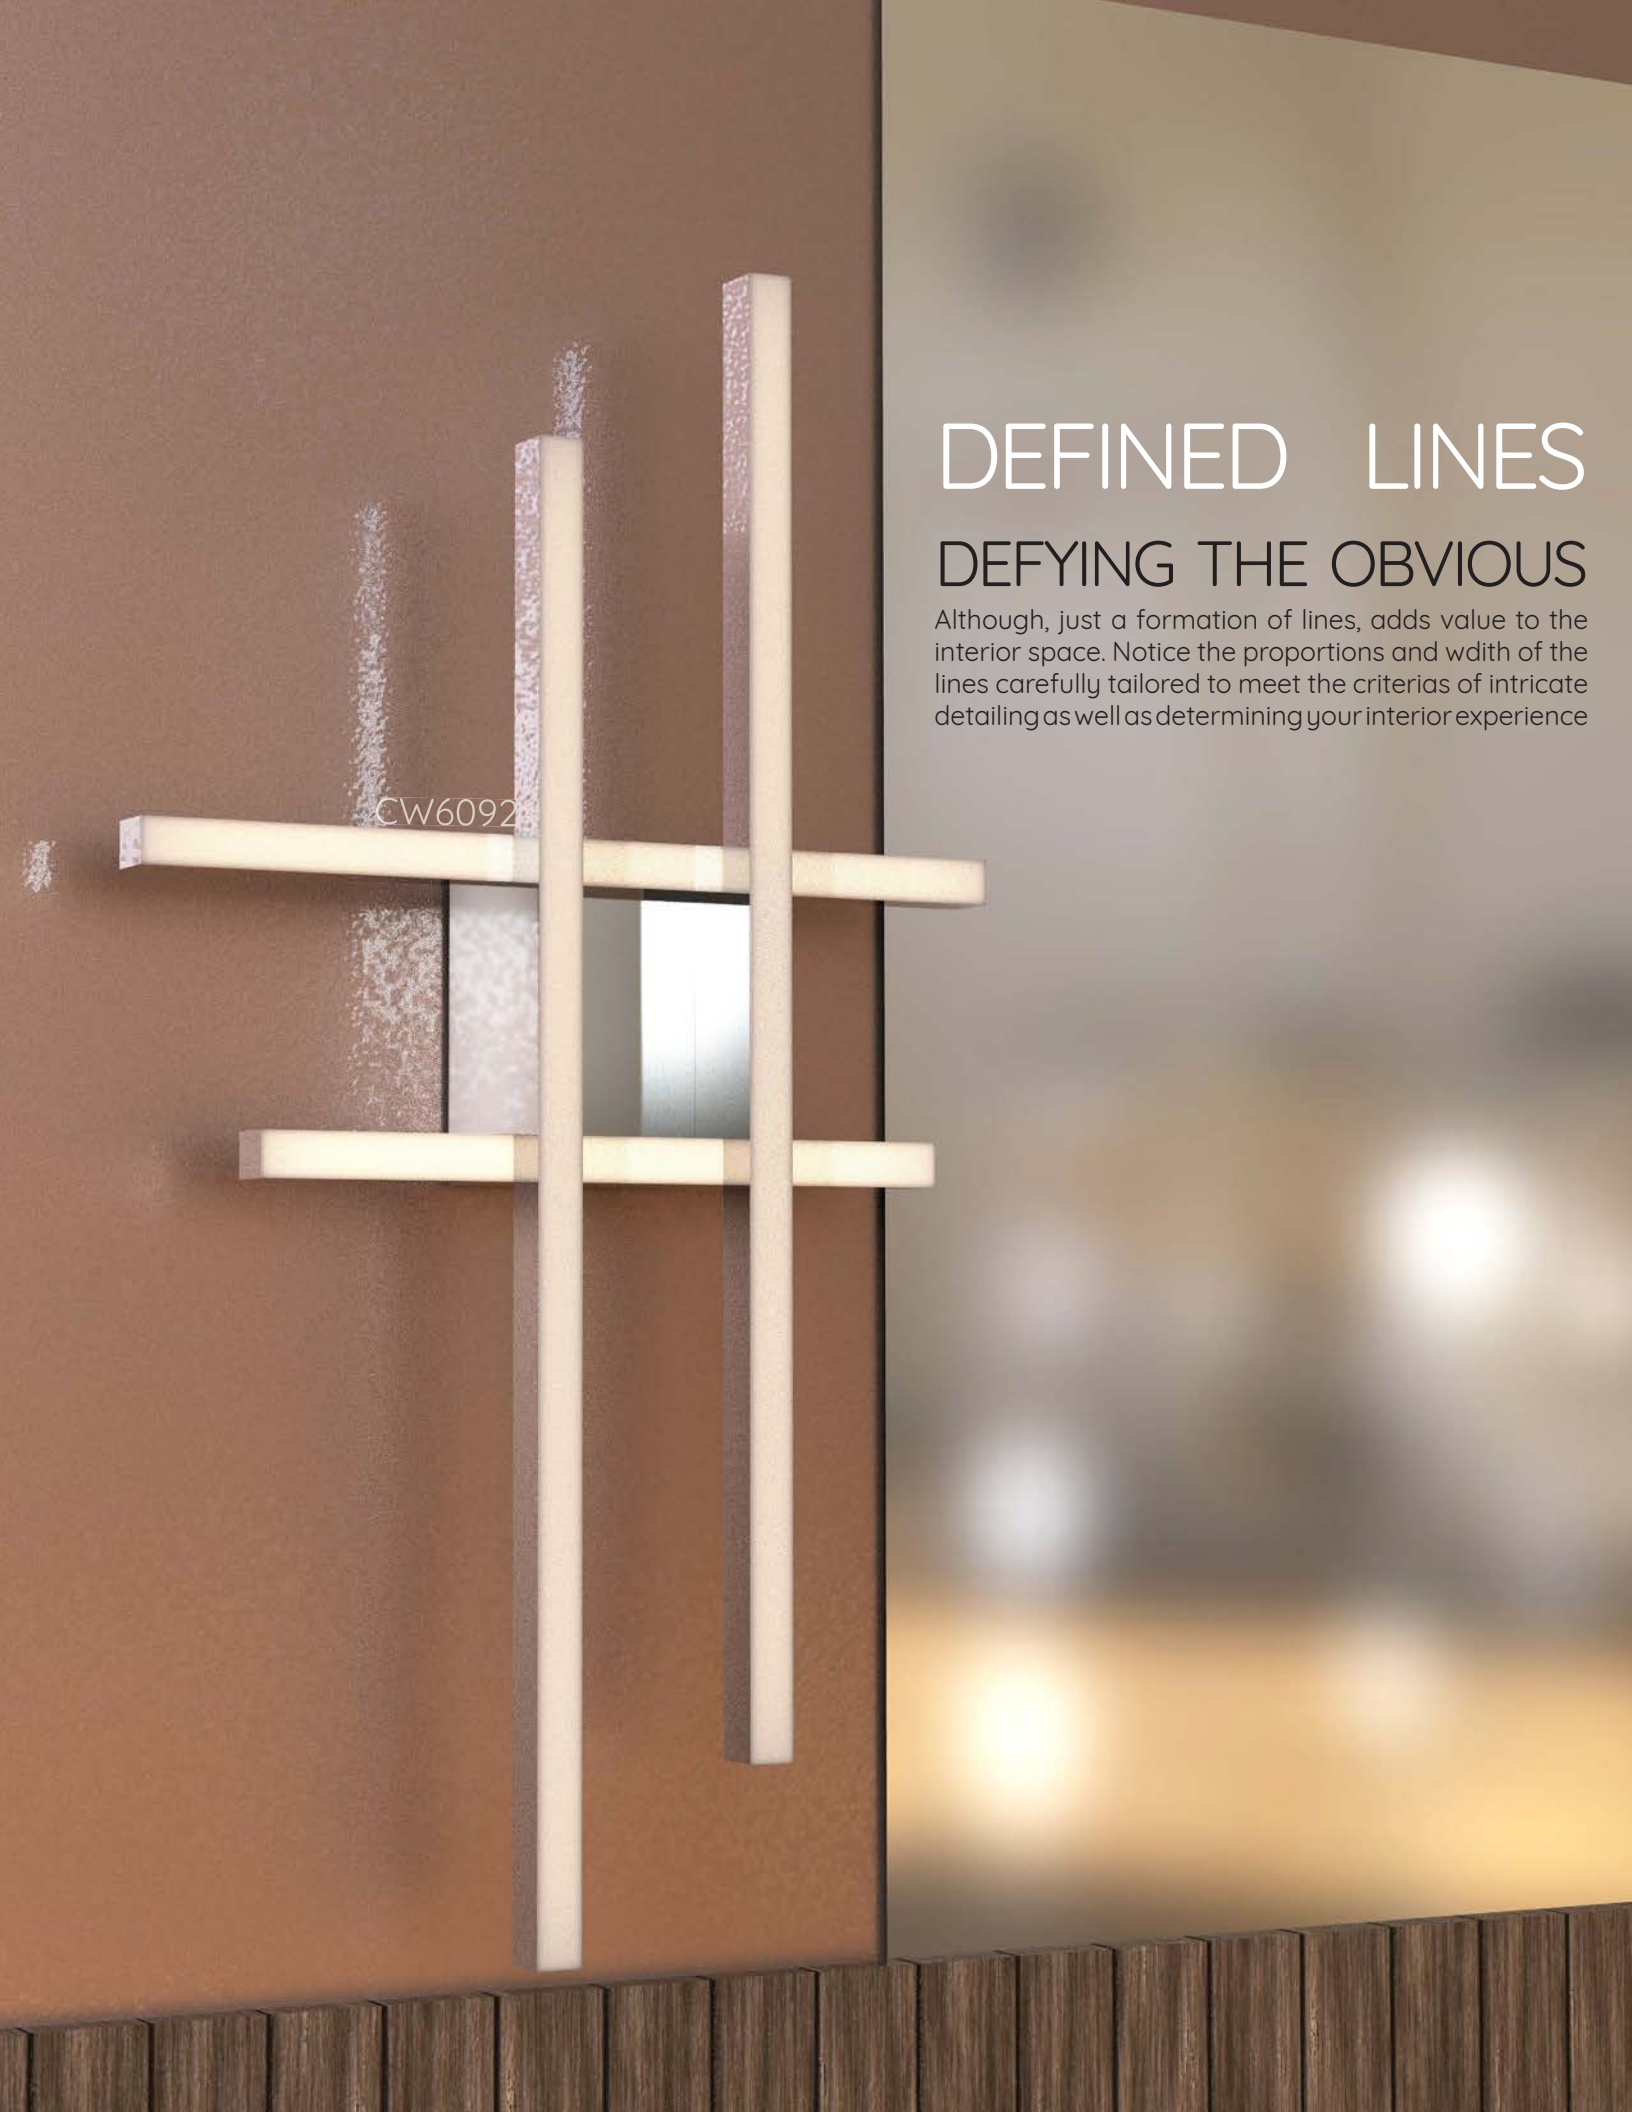

CW6091

Height: 24"

Shade Material: Custom cut Acrylic
Polished Chrome finish (available
in all MCL standard finishes)
Lamping: 2 x 8W strip LED
(included)

CW6108

DEFINED LINES

DEFYING THE OBVIOUS

Although, just a formation of lines, adds value to the interior space. Notice the proportions and width of the lines carefully tailored to meet the criterias of intricate detailing as well as determining your interior experience

CW6092

CW6109

Height: 32"

Shade Material: Custom Acrylic
Satin Brass finish (available in all
MCL standard finishes)

Lamping: 18W Strip LED (included)

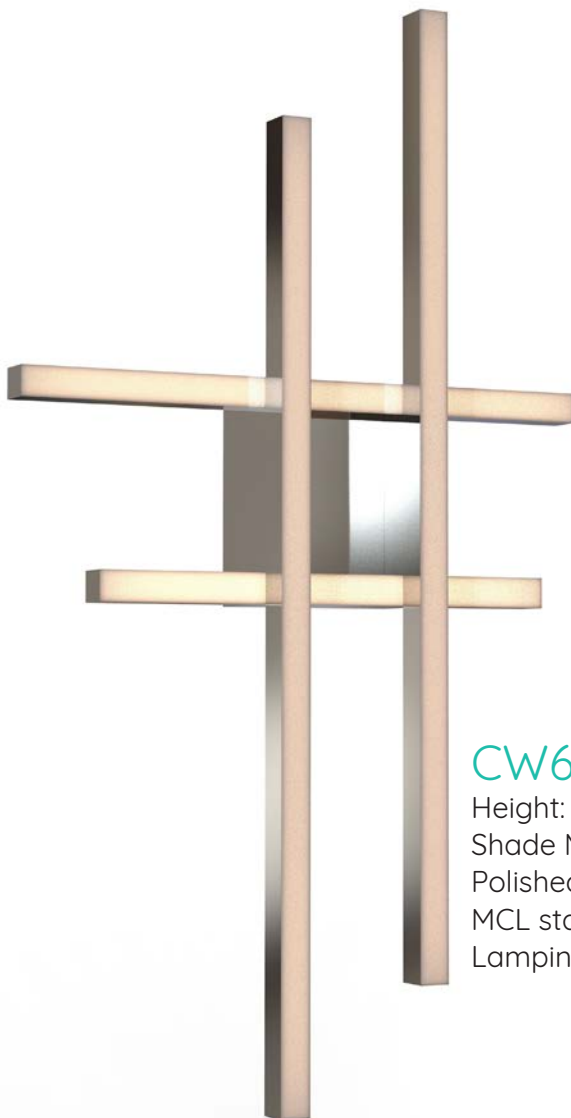

CW6090

Height: 24"

Shade Material: Custom acrylic strip
Satin Copper finish (available in all
MCL standard finishes)

Lamping: 2 x 8W Strip LED
(included)

CW6092

Height: 24"

Shade Material: Custom acrylic strips
Polished Nickel finish (available in all
MCL standard finishes)

Lamping: 4 x 5W strip LED (included)

CW6086

Height: 24"

Shade Material: Custom bent acrylic
Polished Chrome finish (available in
all MCL standard finishes)

Lamping: 18W LED panel (included)

CW6087

Height: 24"

Shade height: 18"

Shade Material: Opal Glass
Polished Nickel finish (available in all
MCL standard finishes)

Lamping: 15W LED Panel (included)

CW6084

Height: 20"

Shade Material: Opal Glass
Polished Chrome finish (available
in all MCL standard finishes)

Lamping: 2 x 5W LED Candelabra
base bulbs (Bulbs not included)

FLAT PLAINS

CONFINING THE LIGHT

A rather simplistic approach to lighting designing where metal flats define the lighting fixture. Note the illusion created by metal flats in holding the light fixture.

CW6087

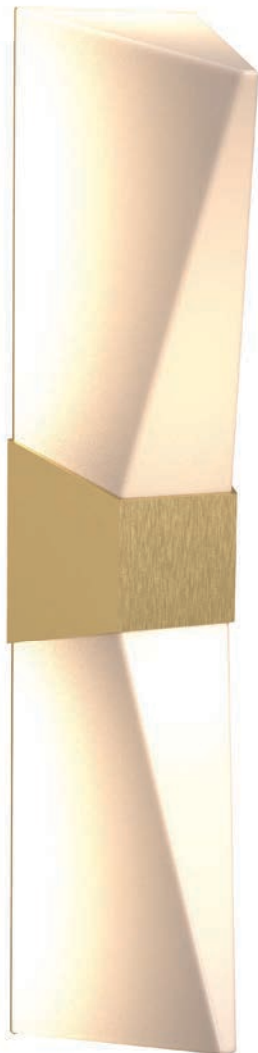

CW6088

Width: 30"

Shade Material: Custom acrylic
Satin Chrome finish (available in all
MCL standard finishes)

Lamping: 20W LED Panel (included)

CW6085

Height: 25"

Shade Material: Custom formed acrylic
Brushed Brass finish (available in all
MCL standard finishes)

Lamping: 2 x 10W Panel LED (included)

GEOMETRIC V O L U M E S

An exploration in to simple yet unique polygons. Note the custom formed acrylic with highlighting edges and defining corners. Finished with chrome and brass finish but available in your choice of finishes depending on your interior requirements.

SINCE
1922

We have been in the industry long enough (over 95 years) to know what we are doing.

WHY? MARIO

Why do we think you can trust us for your next Hospitality project? Both from Production and Design perspective? Why do we think we have an edge against some of our competitors?

DOMESTIC & IMPORT PRODUCTION

Depending on the size of the project, we determine whether to manufacture our lights as import or domestic.

QUALITY CONTROL (QC)

All the fixtures are QC'ed in China and then in The USA by our highly efficient engineers and designers.

LATEST LED LAMPING

Our team is in constant search for new lamping technology outside to add new features in our designs as well as making them even more Innovative and Sustainable.

IN-HOUSE DESIGN TEAM

Our Designers are always seeking exclusive innovative design solutions. We can also help you brainstorm on your next lighting design project.

GENUINE UL LED CERTIFICATION

We make sure that all of our lamps are UL Certified and they are produced according to the standards

BASECAMP

We make sure all our projects are managed using latest management software to ensure timely delivery of your project.
